

VOLT 2019

CHEVROLET

Volt Premier in Cajun Red Tintcoat
(extra-cost colour).

TAKE CHARGE AND SEE HOW FAR YOU CAN GO.

The 2019 Chevrolet Volt helps get you where you want to go, and gives you the confidence to explore places you didn't know existed.

An impressive vehicle in the award-winning Chevrolet electric lineup,¹ Volt offers up to 85 electric kilometres² on a single full charge and up to hundreds of kilometres more on a full tank of gas. So you can make fewer stops along the way, wherever you may be headed.

With Volt, Chevrolet has made it easy to make important choices for our kids' future. Not just ours. See why Volt continues to be the best-selling plug-in electric vehicle in Canada.³

¹ Based on recognized industry awards for 2016–2018 model years. ² 2019 Volt fuel/energy consumption and range ratings are estimates based on GM testing in accordance with Government of Canada approved testing methods. Refer to vehicles.nrcan.gc.ca for details. Full charge and full tank of gas required (as applicable). Actual consumption, driving range and energy costs will vary based on several factors, including temperature, terrain, driving conditions, battery age and how you drive and maintain your vehicle. Even with a fully charged battery, the gas-powered electric generator may activate in certain conditions, such as cold weather or for engine/fuel maintenance. ³ Based on IHS/Polk data on total new vehicle registrations in Canada, from 2011 to July 2018, and latest competitive information available at time of posting.

FIND NEW ROADS™

CHARGING

Volt Premier in Pacific Blue Metallic (extra-cost colour). Available 240-volt charging station shown (professional installation required).

BASIC – 120-VOLT

UP TO 6.4 KILOMETRES PER HOUR OF CHARGE^{1,2}

HOME + PUBLIC STATIONS

FAST – 240-VOLT

UP TO 35.4 KILOMETRES PER HOUR OF CHARGE^{2,3}

HOME + PUBLIC STATIONS

CHARGE ON A DAILY BASIS

- 120-volt charging capability comes standard.
- 120-volt portable charge cord comes standard with the vehicle.

BENEFITS

- Gives owners the opportunity to top off their charge.
- Charge anywhere there's a 120-volt 3-prong outlet.
- You can fully recharge a depleted battery in as little as 13 hours^{1,2}

CHARGE WHENEVER YOU WANT

- 240-volt charging capability comes standard.
- The recommended 240-volt charging unit (professional installation required) is available for purchase through your Chevrolet dealer or GM Accessories.
- 240-volt charging is available at most public charging stations.

BENEFITS

- Charge at home quickly and conveniently.
- Easily top off your charge at any time.
- If you deplete the battery, the standard 3.6 kW onboard charger can fully replenish the battery in as little as 4.5 hours²
- The available 7.2 kW onboard charger can fully replenish the battery in as little as 2-1/4 hours^{2,3}

¹ Requires the 120-volt charge to be set at 12 amps. ² Charging rate varies based on output of the charge unit, vehicle settings and outside temperature. ³ Requires the 240-volt charge to be set at 32 amps with the 7.2 kW charger. The 7.2 kW charger is standard on Premier and available on LT.

THERE'S A SCREEN FOR EVERYTHING.

Want to know how much power you're using? Volt has a screen for that. The Energy Usage Score screen shows how well you use energy. Plus, get quick access to valuable data, such as your battery level, charge settings, range estimation and more.

LOCATION-BASED CHARGING.

Volt makes charging efficient, with home and away settings for recharging. By designating your home location, you can delay charging to take advantage of off-peak electricity rates when you're at home and begin charging immediately when you're away.

REGEN ON DEMAND. This feature allows Volt to convert kinetic energy into electricity and transfer it back to the battery. A simple pull and hold of the Regen on Demand paddle on your steering wheel can decelerate your vehicle!¹

¹ Feature unavailable in very cold weather and at or near full charge. Visit chevrolet.ca for details.

LITHIUM-ION BATTERY The advanced 18.4 kWh lithium-ion battery was designed to be lightweight, powerful and efficient.

GENERATOR When the battery is depleted, the gas-powered generator kicks in to extend the range of Volt.

REGENERATION Volt empowers you to put energy back into your battery through regenerative braking and a steering wheel-mounted Regen on Demand paddle!

ELECTRIC DRIVE UNIT The Electric Drive Unit in Volt propels the vehicle with energy either from the vehicle's battery or its range-extending gas-powered generator, making it the electric vehicle with a backup plan.

EXTERIOR DESIGN

Volt Premier in Pacific Blue Metallic
(extra-cost colour).

A MODERN-DAY BEAUTY. The athletic shape, along with dramatic upper and lower grille pads, gives Volt an identity all its own. From the finely tuned exterior to the LED signature daytime running lamps, there's brilliance in every detail.

DYNAMICALLY AERODYNAMIC. Deliberate contours and expressive proportions form a bold, confident stance. So staring is understandable, but get inside and you'll find the journey is even more rewarding.

THE COMPLETE PACKAGE. Advanced EV technologies include Regen on Demand¹, which helps convert kinetic energy into electrical energy and transfers it back to the battery, and the Power Flow screen, which helps keep you aware of whether you're using electricity or gas.

¹ Feature unavailable in very cold weather and at or near full charge.

1. THE CHOICE IS YOURS.

Volt offers two trim levels with unique wheels and multiple colour choices. So it's easy to make Volt match your own unique personality.

2. BRIGHT ROADS AHEAD.

LED low-beam headlamps combine with signature LED daytime running lamps to enhance the eye-catching design with illuminating detail.

3. IMPRESSIVE CURVES.

Volt was expertly carved and shaped with diligence and precision, all in the name of performance and efficiency.

INTERIOR DESIGN

Volt Premier interior in Jet Black with available features.

A WARM WELCOME. Inside, everything about Volt is visually stunning. The beautifully crafted interior features standard heated front bucket seats that keep you comfortably in place, while twin-needle stitching provides a luxurious appeal. A refined driving experience is achieved before you even take off.

INVITINGLY INNOVATIVE. Everything in Volt revolves around you, with thoughtfully designed features that are both intuitive and ingenious. In every respect, Volt welcomes you with comfort.

ONE TOUCH GIVES YOU ALL ACCESS. A colour touch-screen in the centre of the instrument panel puts virtually everything you need within reach. Energy screens, certain features from your phone, music, infotainment and other controls – it's all right here, and easily accessible.

1

1. TAKE THE CHILL AWAY. Heated front bucket seats are standard on both LT and Premier models. Rear (outboard) heated seats are also included on the Premier model.

2. COMFORTABLY IN CONTROL.

The standard leather-wrapped heated steering wheel on Volt includes switches that allow you to make and receive calls, adjust the audio system or cruise control all while keeping your hands on the wheel.

2

3

3. NO ROOM FOR COMPROMISE.

You'll have plenty of space to put your stuff. With functional cargo space and seating accommodations for five passengers, you'll have room for everything that fills your life.

TECHNOLOGY

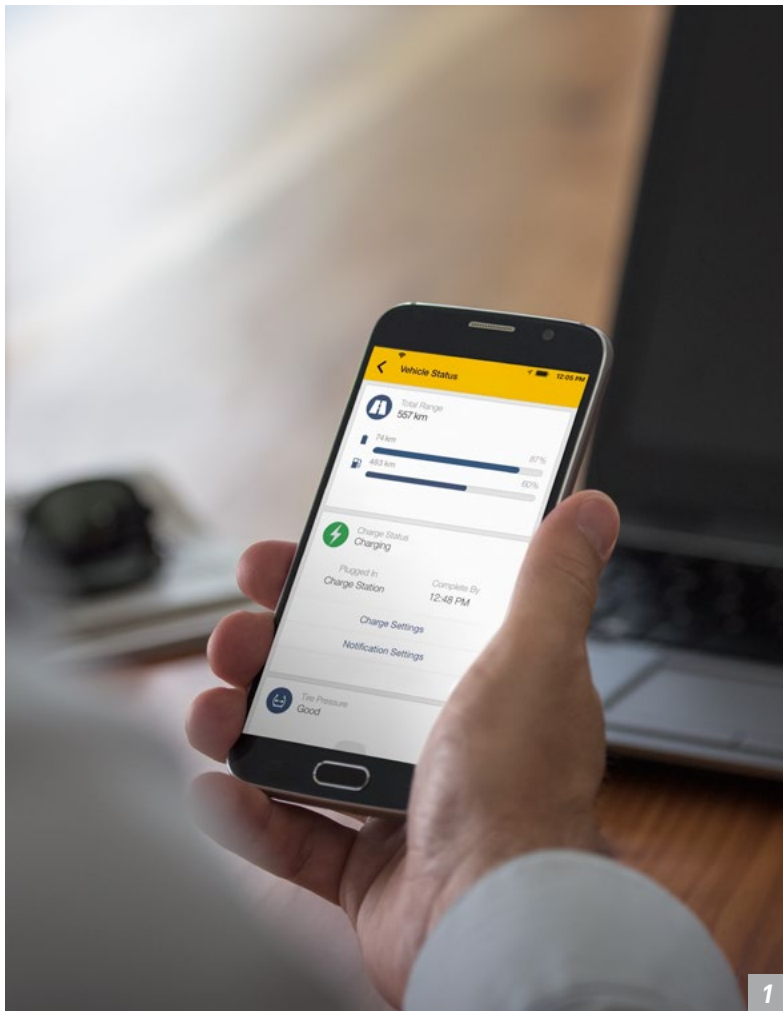

¹ Visit onstar.ca for vehicle availability, coverage maps, details and system limitations. Services and connectivity vary by model and conditions as well as geographical and technical restrictions. 4G LTE service available in select markets. Requires active connected vehicle services and a data plan to access the vehicle's built-in Wi-Fi hotspot. Accessory Power must be active to use the Wi-Fi hotspot. Data plans provided by AT&T or its local service provider. Credit card is required for purchase.

² Vehicle user interface is a product of Apple and its terms and privacy statements apply. Requires compatible iPhone and data plan rates apply.

Wi-Fi® IN YOUR VOLT. Chevrolet offers an available built-in 4G LTE Wi-Fi® hotspot¹ (data plan required) providing a fast Internet connection for up to seven compatible devices.

Apple CarPlay® COMPATIBILITY.

With Apple CarPlay^{®2} you can simply and smartly connect with some of your most used iPhone® features, including Maps, Music, Messages and Phone, right on your touch-screen display.

1. myChevrolet® MOBILE APP!

Simply download the app to your compatible smartphone and with an eligible active service plan² and a properly equipped vehicle, you can start or turn off your engine³; lock or unlock your doors³; send destinations to your available navigation⁴ system, view key vehicle diagnostic information⁵; set parking reminders and more.

2. MONITOR CHARGE IN REAL TIME.

Want to know where you're using the most energy or how much charge you have left in the battery? All of that valuable real-time information is housed on the colour touch-screen and Driver Information Centre behind the steering wheel.

3. ANDROID AUTO COMPATIBILITY⁶

With Android Auto™⁶ compatibility, you can interact with select smartphone apps. This system takes some of your compatible Android™ phone's features and puts them on the Chevrolet Infotainment System⁷ display in a smart, simple manner. You can access your phone, text messages, music, navigation and more.

¹ Available on select Apple and Android devices. Service availability, features and functionality are subject to limitations and vary by vehicle, device and the plan in which you are enrolled. Device data connection required. Visit onstar.ca for more details. ² Requires subscription to Remote Access Plan or Premium Access Plan. Remote Access Plan does not include emergency or security services. Services are subject to user terms and limitations, and vary by vehicle model. Visit onstar.ca for more details. ³ Unlock feature requires automatic locks. Remote start requires GM factory-installed and enabled remote start system. Visit onstar.ca for more details. ⁴ At time of printing, detailed map coverage is available for most major urban areas of the United States and for certain metropolitan areas of Canada (Vancouver, Calgary, Edmonton, Winnipeg, Windsor, London, Toronto, Ottawa, Montreal, Quebec City and Halifax). Coverage is significantly limited outside these areas. ⁵ Diagnostic capabilities vary by model and do not cover all vehicle conditions. Additional message and data rates may apply. Requires email address on file and enrollment in Vehicle Diagnostics. ⁶ Vehicle user interface is a product of Google and its terms and privacy statements apply. Requires the Android Auto app on Google Play and an Android compatible smartphone running Android 5.0 Lollipop or higher. Data plan rates apply. ⁷ Chevrolet Infotainment System functionality varies by model. Full functionality requires compatible Bluetooth and smartphone, and USB connectivity for some devices. Data plan rates may apply.

SAFETY

**PARALLEL PARKING CAN BE A PIECE OF CAKE
WITH AVAILABLE AUTOMATIC PARKING ASSIST!¹**

¹ Read the vehicle Owner's Manual for important feature limitations and information.

1. BE THERE, EVEN WHEN YOU'RE NOT.

Teen Driver technology helps encourage better driving habits for new drivers in a number of ways, including muting the audio system when front-seat occupants are not wearing their seat belts and giving audible and visual warnings when the vehicle is travelling over a predetermined speed.

2. ONSTAR® AUTOMATIC CRASH

RESPONSE. In a crash, built-in sensors are designed to send a signal that can alert a specially trained, Emergency Medical Dispatch-certified advisor¹ who can help you get the assistance you need – even if you can't ask for it. The advisor can use GPS technology to help pinpoint your vehicle's location. This service requires an OnStar-equipped vehicle and a paid subscription to the OnStar Safety & Security Plan²

3. INTELLIGENT AIRBAGS.

Volt features 10 standard airbags³ and a collision sensor system designed to deploy only the airbags that are needed.

¹ OnStar Emergency Advisors are certified by the International Academies of Emergency Dispatch. ² OnStar acts as a link to existing emergency service providers. Not all vehicles may transmit all crash data. Roadside service provided by Allstate Roadside Services, and limitations and restrictions apply. Stolen Vehicle Assistance requires armed factory-installed theft-deterrent system and selection of notification communication preference(s). These services are intended to assist with vehicle recovery and do not prevent theft or protect against damage or loss. Additional messaging and data rates may apply. Services are subject to user terms and limitations, and vary by vehicle model. Visit onstar.ca for more details. ³ A NOTE ON CHILD SAFETY: Sitting too close to an airbag when it deploys can increase the risk of serious injury or death. Always properly wear your seat belt. Always use seat belts and the correct child restraint for your child's age and size, even with airbags. Even in vehicles equipped with the Passenger Sensing System, children are safer when properly secured in a rear seat in the appropriate infant, child or booster seat. Never place a rear-facing infant restraint in the front seat of any vehicle equipped with an active frontal airbag. See your vehicle Owner's Manual and child safety seat instructions for more safety information.

VOLT PUTS SAFETY FIRST. THE SAME WAY YOU DO.

ADAPTIVE CRUISE CONTROL – ADVANCED. This available feature enhances regular cruise control. The cruise control speed is automatically adapted in order to maintain a driver-selected following gap between the vehicle and vehicles detected ahead while the driver steers, reducing the need for the driver to frequently brake and accelerate.

LOW SPEED FORWARD AUTOMATIC BRAKING. If the vehicle is travelling at a low speed and the camera-based system determines a front-end collision situation is imminent with a detected vehicle ahead, and the driver has not already applied the brakes, this available system automatically engages the brakes to help reduce the collision's severity. The system may even help avoid contact at very low speeds.

FORWARD COLLISION ALERT. This available feature monitors how close your vehicle is to the vehicle in front of you. If the system determines that a front-end collision with a detected vehicle is imminent, it can alert the driver to a potential crash. It also can warn the driver if their Volt is following a detected vehicle much too closely.

LANE KEEP ASSIST WITH LANE DEPARTURE WARNING. At speeds above 60 km/h, this available camera-based system is designed to monitor road lines and to gently turn the steering wheel if the vehicle begins leaving the detected lane when the turn signal is not activated.

LANE CHANGE ALERT WITH SIDE BLIND ZONE ALERT. This available feature can provide side-mirror alerts to help the driver avoid a moving vehicle detected in their side-mirror blind zone or a vehicle that is rapidly approaching their side blind zone during a lane change manoeuvre. Amber icons in the exterior mirrors indicate a detected vehicle's presence.

REAR CROSS TRAFFIC ALERT. Using radar sensors, this available feature is designed to alert the driver to crossing vehicles behind Volt when in Reverse. Audible warnings, as well as visual alerts on the touch-screen display, are triggered if approaching vehicles are detected from either side.

HD REAR VISION CAMERA. The standard HD Rear Vision Camera with dynamic guiding lines uses the 8-in. diagonal colour touch-screen display to show the area behind your Volt when you are travelling in Reverse at low speeds.

AUTOMATIC PARKING ASSIST. This available system helps the driver parallel and perpendicular park by automatically steering the vehicle into a detected parallel or perpendicular parking space while the driver follows text commands, selects gear and performs all braking and acceleration.

FRONT AND REAR PARK ASSIST. Ideal when pulling into a parking space at low speeds, this available system is engineered to provide distance-to-object alerts to help the driver park and avoid nearby detected objects directly ahead or behind the vehicle during low-speed manoeuvring.

Safety or driver assistance features are no substitute for the driver's responsibility to operate the vehicle in a safe manner. The driver should remain attentive to traffic, surroundings and road conditions at all times. Visibility, weather and road conditions may affect feature performance. Read the vehicle Owner's Manual for more important feature limitations and information.

HOME CHARGING UNIT

Please see your Chevrolet Volt dealer for complete information and details on available 240-volt home charging stations and any provincial incentives.

- Chevrolet Certified Service – to help your Chevrolet vehicle live up to its performance promise, Chevrolet Certified Service – found exclusively at your Chevrolet dealer – is there. With all the engineering excellence in your vehicle, GM-trained technicians have the expertise to care for all of it.
- Chevrolet Owner Centre – as an owner, take advantage of the Chevrolet Owner Centre. This online owner's destination gives you access to contests, current offers and the latest driving and maintenance tips. Find out more at mychevrolet.ca.

TO HELP YOU PURCHASE OR LEASE A NEW VEHICLE

- Purchase Financing and Leasing – on-the-spot financing; see dealer for full details!¹¹
- GM Student Bonus Program – students or recent graduates of high school, college or university¹¹ may be entitled to receive a Student Bonus Vehicle Redemption Allowance of \$500 or \$750⁹ (tax inclusive) (purchased vehicle dependant) to use towards the purchase, lease or finance of one eligible new Chevrolet vehicle.
- GM Card[®] – Cardholders may redeem Earnings towards the total purchase price or lease down payment of an eligible new Chevrolet car, truck or crossover. Restrictions and limitations apply. For full program details, visit gmcards.ca.

INFORMATION RESOURCES You can find more information about these programs from your Chevrolet dealer, or at these information centres:

- The Chevrolet website at chevrolet.ca
- The GM Customer Care Centre at **1-800-GM-DRIVE (1-800-463-7483 or 1-800-263-3830** for TDD users).

A WORD ABOUT THIS BROCHURE Some of the equipment shown or described throughout this brochure may be available at extra cost. We have tried to make this brochure comprehensive and factual. We reserve the right, however, to make changes at any time, without notice, in prices, colours, materials, equipment, specifications, models and availability. Specifications, dimensions, measurements, ratings and other numbers in this brochure and other printed materials provided at the dealership or affixed to vehicles are approximates based upon design and engineering drawings and prototypes and laboratory tests. Your vehicle may differ due to variations in manufacture and equipment. Since some information may have been updated since the time of printing, please check with your Chevrolet dealer for complete details. General Motors of Canada Company reserves the right to lengthen or shorten the model year for any product, for any reason, or to start and end model years at different times. Certain vehicle features may lose their usefulness over time due to obsolescence from technological changes. Unless otherwise noted, all claims based on the latest available competitive information. Excludes other GM vehicles.

ENGINES Chevrolet products are equipped with engines produced by GM Global Propulsion Systems or other suppliers to GM worldwide. The engines in Chevrolet products may also be used in other GM makes and models.

ASSEMBLY Chevrolet vehicles and their components are assembled or produced by different operating units of General Motors, its subsidiaries or suppliers to GM worldwide. We sometimes find it necessary to produce Chevrolet vehicles with different or differently sourced components than originally scheduled. Since some options may be unavailable when your vehicle is assembled, we suggest you verify that your vehicle includes the equipment you ordered and that, if there were changes, they are acceptable to you.

AN IMPORTANT NOTE ABOUT ALTERATIONS AND WARRANTIES

Installations or alterations to the original equipment vehicle (or chassis) as distributed by General Motors are not covered by the New Vehicle Limited Warranty. The special body company, assembler, equipment installer or upfitter is solely responsible for warranties on the body or equipment and any alterations (or any effect of the alterations) to any of the parts, components, systems or assemblies installed by GM. General Motors is not responsible for the safety or quality of design features, materials or workmanship of any alterations by such suppliers.
