

## WHAT SHOULD I KNOW IF I GET INTO AN ACCIDENT?

**If your vehicle is not safe to drive at the accident scene, follow these steps:**

1. Call Castellano's Towing (951) 652-0663
2. If the Police are on the scene, tell them you want your vehicle repaired at Gosch Collision Center Hemet (this enables us to help protect your investment by properly repairing your vehicle as designed by the factory engineers).
3. Contact your insurance company and report the damage and that you have selected Gosch Collision Center for repairs.
4. Inform your insurance company where their claims person can see your vehicle (it is not mandatory for you to use the "drive-in claims services" if your insurance offers it).

**If the accident is your fault, your insurance company will cover the damage to your vehicle and the other party. If the accident wasn't your fault the other parties insurance should cover your damages and rental reimbursement. Try to collect from the other insurance, this will entitle you to a rental vehicle and you won't have to pay a deductible. If your vehicle is safe to drive, Gosch Collision Center is located at:**

**ADDRESS:**

350 Carriage Circle  
Hemet, CA 92545

100 Carriage Circle  
Hemet, CA 92545
